INDEX

VOL. XXIX, 1935-36.

Note.—In this volume two series of numbers are used for pagination, one being the sectional page number and the other the volume page number. The latter only is used in the Index. An asterisk (*) is an indication that German and French abstracts are given of those particular papers.

Abortus fever, case of, 502
Acanthosis nigricans, case of, 1629
Acaprin, action in piroplasmosis, characteristics of, 319
results of, 317, 318
chemistry of, 317
Acoustic neuroma, radiological signs of, 1158
Acrocyanosis treated by sympathectomy, 524
? **Acrodermatitis** chronica atrophicans (Herxheimer), case of, 919
Acroparæsthesia, case of, 521
Acrosclerosis associated with Raynaud's syndrome, case of, 1639
Actinomycosis of lung, cases of, 211, 1433
Adams, P. H.—Monocular optic neuritis ? neoplasm, 957
Adams, W. S.—Apparent complete loss of bone conduction in presence of fair hearing by air conduction, 834
Discussion on problem of facial paralysis, 1690
on value of radiology in diseases of the ear, 969
Addis, R. S.—Discussion on enuresis, 1515
Addison, O. L.—Urology in children, 1295
Addison's disease, treatment of, by adrenal grafting, 42
treatment of, with salt, discussion on, 1137
Adrenal factor influencing the action of insulin, 666
grafting in treatment of Addison's disease, 42
Adrian, E. D.—The electrical activity of the cortex, 197
Agenesia of enamel, case of, 1542
Agglutination, modern methods of (J. C. Cruickshank), 841
Agranulocytosis, discussion on, 671
treatment of, 678
Aird, I.—Discussion on intestinal strangulation, 991
Aitken, R. S.—Chronic meningococcal septicæmia ending in meningococcal meningitis and recovery, 1223
Alastrim and vaccinia in the monkey, comparison of inclusion bodies of, 1527
and variola vera, in human cases, comparison of inclusion bodies of, 1529
diagnosis of, by inoculation of the cornea of the rabbit, 1531
Alastrim, histological changes in, 1534
pathology of, further studies on, and their significance on the variola-alastrim problem (Lloyd Roberts Lecture) (C. M. Torres), 1525
Allchin, F. M.—Discussion on malignant disease of upper jaw, 1507
Allen, S.—Discussion on the motion: "That induction of premature labour should not play any part in the treatment of pelvic contraction or disproportion in primagravidæ," 1495
Allergic tests in external eye conditions (A. Sorsby and L. R. Benham), 955
Allibone, T. E.—Continuously evacuated X-ray tubes, 439
Allot, E. N.—Discussion on treatment of Addison's disease with salt, 1144
Alopecia, hereditary, in mother and daughter, 1283
Alpha and *Beta* rays in skin therapy (S. Lomholt), 1401
Amaurotic family idiocy (Tay-Sachs' disease), case of, 742
Amyloid disease, case previously shown, final report on, 499
Anæmia, aplastic, case of, 1215
chronic, leucopenia, granulocytopenia and thrombo-cytopenia, with absolute increase of lymphocytes, 519
hypochromic, idiopathic, with dermatitis herpetiformis, 1288
iron-deficiency, responding to liver-therapy and suggesting the co-existence of a pernicious type of anæmia, 522
with bone changes in skull, 743
with pigmentation of skin: collapsed left lower lobe, 1209
Anæsthesia in thoracic surgery, methods available, 645
with special reference to lobectomy (I. W. Magill), 643
Anderson, R. G.—Acroparæsthesia, 521
Aneurysm, calcified, in region of pituitary, 435
Angeiomata retinæ, 961
serpiginosum, case of, 455
Angiosarcoma of choroid, 228

Angiography, cerebral, 1172
Animal viruses, life history of, 563
Animals, virus diseases of, transmitted by bites of insects, 568
Antileprol injections, lupus erythematosus treated by, 90
Antrum and nose, bilateral perforation into the mouth, following chronic destructive osteomyelitis of the maxilla, 1099
dental infections of, pathology and treatment of (C. N. Strong), 1547
Anxiety neurosis in relation to the menopause, 1090, 1094
Appendicitis, acute, paralytic ileus in (W. Sampson Handley), 163
Apraxia, constructional, the question of visual impairment in (W. Mayer-Gross), 1396
Arabic pharmacology, mediæval (E. J. Holmyard), 99
Arachnodactyly, with congenital heart disease (? patent interventricular septum), 120, 501
Army, inefficiency in, chronic dental infection as a cause of (S. H. Woods), 375
? **Artefact**: case for diagnosis, 247
? Radio-dermatitis. Case for diagnosis, 93
Arterial calcification and subcutaneous calcinosis in boy aged 20 months, 499
disease, obliterative, as it affects the limbs, discussion on, 869
hypertension, some psychiatric observations in (E. Guttmann), 1387
Arteriograms, value of, in obliterative arterial disease, 874
Arthritis, chronic, treatment of, by electropyrexia, 159
Arthrodesis, intrapelvic, of a tuberculous hip-joint by a fibular graft, 70
Artificial fever, experiments in induction of, 171
Asherson, N.—Left-sided otogenic sphenoidal-lobe abscess, without otorrhœa or localizing signs. Operation. Recovery, 1683
Assinder, E. W.—Manifestations of venereal diseases in the mouth and face, 503
Asthma, treatment of, by electropyrexia, 159
Atelectasis in the newborn child, prevention and treatment of: with particular reference to the use of a new inclined receiving table (J. B. Blaikley and G. F. Gibberd), 1205
Atlas, inflammatory dislocation of, from axis, 1220
Avertin, use of, discussion on, 707, 710
use of, in veterinary practice, 703
Avoleum and phlyctenular keratitis, 760

Bailey, Hamilton.—Addison's disease treated by adrenal grafting, 42
Complete cystectomy for recurrent carcinoma of bladder, 370
Mitral stenosis with congestive heart failure treated by complete thyroidectomy, 41
Plastic operation for hydronephrosis: report of two cases, 371
Baillie, M.—Epididymomata. Three specimens, 367
***Baker**, A. Z., and **Wright**, M. D.—Vitamin B, in human diets, 1145
Balfour-Jones, S. E. B.—Discussion on use of the non-volatile narcotics, 709
Ballance-Duel nerve graft in cases of facial paralysis, 1679
Bamber, G.—Bowen's disease, 291
Epidermolysis bullosa hereditaria simplex, 94
Fibroma with atypical epithelial proliferation, 714
Keratosis of the nipples, 1289
? Lupus erythematosus (tumid type), 925
Pigmented epithelioma, 462
Pigmented hairy mole, 250
Poikilodermatomyositis, 1635
Barber, H. W.—Hereditary alopecia in mother and daughter, 1283
Lichen planus with herald planus, 285
Multiple leiomyomata, 919
Parakeratosis variegata. 457
Barbiturate narcotics, use of, discussion on, 708
Barbiturates: their chemistry, action and toxicology (H. T. Roper-Hall), 275
Barbour, R. F.—Bromide intoxication, 1391
Barnes, E. B.—Discussion on value of radiology in diseases of the ear, 979
Barton, E. A.—Discussion on prevention of neonatal death, injury, and disease, 1201
Bateman, D.—Pneumatocele of neck, 1217
Two cases, and specimens from a third case, of punctate epiphyseal dysplasia, 745
Batten, G. B.—Discussion on immobilization treatment of rheumatoid arthritis, 242
Bayon, H. P.—Erythromyelosis in fowls (yellow anæmia) and its treatment by liver extracts, 1227
Bazin's disease associated with Raynaud's disease, treated by lumbar ganglionectomy, 636
papulo-necrotic tuberculide, 463
Bedford, Evan.—Discussion on recognition of myocardial disease, 144
Bedson, S. P.—Discussion on the routes of infection and paths of transmission of viruses, 577
Belfrage, D.—Discussion on use of the non-volatile narcotics, 706
Benham, L. R.—Allergic tests in external eye conditions, 955
Bensaude, R., and **Lambling**, A.—Discussion on ætiology and treatment of fibrous stricture of rectum (including lymphogranuloma inguinale), 1441
Berger rhythm, 199
***Binocular** vision in everyday life, with description of the binocular gauge (P. C. Livingston), 59
Bio-electrical phenomena, recording of, observations on adaptation of cathode ray oscillograph to, with special reference to the electrocardiogram (D. Robertson), 593
Biological approach to study of epidemiology (S. F. Dudley), 1
Bishop, P. M. F.—Discussion on the medical aspects of the menopause, 1093
Bladder, abnormalities of, in children, 1300
stone in, age incidence of, 1363, 1364
character of, 1367
diagnosis of, 1370
frequency and influence of movement, 1369
hæmaturia in, 1369

Bladder, stone in, incontinence due to, 1368
interruption of stream due to, 1368
operation for, 1370, 1371
pus in urine and, 1369
size in relation to pain, 1367
symptoms of, 1366
Blaikley, J. B.—Two cases of angular pregnancy, 1648
and **Gibberd**, G. F.—The prevention and treatment of atelectasis in the newborn child: with particular reference to the use of a new inclined receiving table, 1205
Bland, J. O. W.—Discussion on the routes of infection and paths of transmission of viruses, 578
Blindness, congenital; ? bilateral pseudo-glioma, 1433
Blomfield, J.—Discussion on use of the non-volatile narcotics, 711
Blood, estimation of histamine in (J. H. Gaddum), 1373
films from case of congenital lues with leuco-erythroblastic blood response, 216
pressure, effect on, of sudden relief of intestinal congestion, 992
supply of the lower jaw (C. H. Howkins), 506
transfusion, continous drip method (H. L. Marriott and A. Kekwick), 337
Boeck's sarcoid, ? case of, 1284
Bone conduction, apparent complete loss of, in presence of fair hearing by air conduction, 834
tuberculosis, amyloid disease in, uncomplicated by secondary infection: clubbing of fingers and toes, 498
Borries, G. V. Th.—Diagnostic problems in otogenous intracranial complications, 1341
Discussion on headache associated with disease in nose, 1325
Bourne, Aleck.—Discussion on breech presentations, with special reference to cases of extended legs and arms, 209
on the motion: "That induction of premature labour should not play any part in the treatment of pelvic contraction or disproportion in primagravidæ," 1492
Bousfield, G.—Discussion on use and abuse of the swab in combating diphtheria, 495
Bowen's disease, case of, 291
of finger, case of, 639
Boyd, A. M.—Discussion on obliterative arterial disease as it affects the limbs, 874
***Bradlaw**, R.—Innervation of teeth, 507
Brain, enzymic activity of (J. H. Quastel), 200
selective regional vulnerability of, and its relation to psychiatric problems (A. Meyer), 1175
the spleen, the liver, and the (B. Brouwer), 579
tumours of lateral ventricles and adjacent parts, radiological appearances of, 1168
Brain, R. T.—Dermatolysis and fragility of the skin, 923
Leiomyoma cutis, 641
Morphœa, 1293
Urticaria pigmentosa, 924
Brain, W. R.—Meningioma of optic nerve within the orbit, extending through optic foramen to sphenoidal ridge and suprasellar region. Surgical removal of both orbital and intracranial portions, 960
Third nerve palsy. Aneurysm of posterior communicating artery verified by arteriography. Ligation of internal carotid, 958 following dental extraction, 959
Braithwaite, J. V.—Myopathy, 1439
Brander, J.—Studies of the human pituitary in health and disease, 609
Bread, food value of drinks compared with, 418
Breast, "acute" carcinoma of, "peau d'orange" type, 223
Breech presentations, with special reference to cases of extended legs and arms, discussion on, 205
Briercliffe, R.—Discussion on malaria epidemic in Ceylon, 1934-1935, 537
Brinton, D.—Calcified aneurysm in region of pituitary, 435
Briscoe, Sir Charlton.—Discussion on recognition of myocardial disease, 149
Bromide intoxication (R. F. Barbour), 1391
factor of slow excretion in, 1395
symptoms of, 1393
***Bromley**, J. F.—Discussion on short-distance low voltage X-ray therapy, 799
Bronchial movements and the naso-pulmonary reflex, mechanism of, 527
Bronchiectasis, detelectatic. Lobectomy. Recovery, 119
lobectomy for, 220
total pneumonectomy for, 212, 220, 221
Bronchus, carcinoma of, treated by morcellement removal by bronchoscopy and subsequent radon treatment, 1220
malignant disease of, two cases of, 191
Brooks, W. D. W.—Circulatory adjustments in polycythæmia rubra vera, 1379
Brouwer, B.—The spleen, the liver, and the brain, 579
Brown, H.—Discussion on agranulocytosis, 687
Browne, D.—Congenital deformities of mechanical origin, 1409
Browne, F. J.—Discussion on prevention of neonatal death, injury, and disease, 1203
Buckley, C. W.—Discussion on immobilization treatment of rheumatoid arthritis, 242
Bull, C.—Discussion on radiology in relation to obstetrics, 697
Bunyan, J.—Discussion on the routes of infection and paths of transmission of viruses, 578
Buphthalmos, transient, case of, 965
Burns, J. W.—Discussion on breech presentations, with special reference to cases of extended legs and arms, 205
Burrows, H.—Pyelitis of pregnancy in the light of conditions found in mice after prolonged administration of œstrogenic compounds, 404
Burt, J. Barnes.—Discussion on immobilization treatment of rheumatoid arthritis, 240
Burton, H. L.—Discussion on functional nervous diseases in the Fighting Services, 865
Buttock, sarcoma of, treated with radon seeds, 1010

Cade, S.—Discussion on malignant disease of upper jaw, 1513
Cæsarean section, lower segment, technique of, more especially in "suspect" and infected cases (J. M. M. Kerr), 1645
Cairns, H. W. B.—Meningioma of optic nerve within the orbit, extending through optic foramen to sphenoidal ridge and suprasellar region. Surgical removal of both orbital and intracranial portions, 960
Radiological appearances of meningiomas, 1166
Calculi, urethral, ureteric and prostatic, case of, 1132
Calculus, "stag-horn," removed from a single kidney, 1127
urinary, with special reference to stone in the bladder (H. Lett), 1357
Cambrook, J. Draper.—Snake venom and its use in dental hæmorrhage, 281
Camphor- and coramine-like action, drugs with, pharmacological action and clinical use of (E. C. Dodds), 655
Cancer and the individuation field in organized growth, 1596
earliest references to treatment of, 1022
etymology of, 1020
historical notes on, from the MSS. of Louis Westenra Sambon (A. Haddow), 1015
Capitellum, osteochondritis of, 1660
Capon, N. B.—Discussion on prevention of neonatal death, injury and disease, 1189
Carcinogens and evocators, relation between, in organized growth, 1601
Cardell, J. D. M.—Angiosarcoma of choroid, 228
Caries, complete, of erupted permanent dentition in boy aged 13 years. Agenesia of the enamel, 1542
Carver, J.—Blind supernumerary ureter, 1130
Hypoplasia of left kidney, 364
Neoplasm of right kidney, 365
Stricture of ureter, 1131
Vesical diverticulum with calculi in a woman, 363
Cassidy, Sir Maurice.—Ophthalmoplegia due to aneurysm of internal carotid artery, 633
Cassie, E.—Discussion on prevention of neo-natal death, injury, and disease, 1199
Castration as treatment for prostatic obstruction, 1557
Cataract, familial, right and left, case of, 961
traumatic, perforating wound twenty years after, 389
Catgut, surgical, chromicizing of, 469
efficiency of various sterilizing processes, 475
methods of manufacture, 466
physical properties of, 478
post-operative tetanus and, 478
raw material for, 465
recontamination after sterilization, 473
sterility tests of, 475
sterilized (Sir W. Dalrymple-Champneys), 465
Cathode ray oscillograph, adaptation of, to the recording of bio-electrical phenomena, with special reference to the electrocardiogram (D. Robertson), 593
Cawthorne, Terence.—Discussion on treatment of acute frontal sinusitis, 301
Cawthorne, Terence.—Discussion on value of radiology in diseases of the ear, 972
The prescribing of hearing aids, 1352
Cephalometry and pelvimetry, 694
Cerebellar ataxia (Marie's ataxy), 747
congenital, 211
Cerebral angiography, 1172
Cerebrospinal syphilis, treatment of, by electropyrexia, 154
Cervical tumour, high, with unilateral phrenic paralysis, 434
Ceylon, malaria epidemic in 1934-1935, discussion on, 537
clinical and parasitological features of, 888
Chancre, tuberculous, case of, 297
***Chaoul**, H.—Discussion on short-distance low voltage X-ray therapy, 791
Cheek, tumours of. ? Fibro-myxoma, 1339
Cheilitis associated with microcytic hypochromic anæmia, 91
***Chemotherapy** of infectious diseases caused by protozoa and bacteria (H. Horlein), 313
Children, urology in (O. L. Addison), 1295
Chloral hydrate, use of, in veterinary practice, 702
Chordoma, sacro-coccygeal, case of, 1007
Chorea minor, treatment of, by electropyrexia, 158
Choroid, angiosarcoma of, 228
Christophers, Sir Rickard—Discussion on clinical and parasitological observations on induced malaria, 893
Chrysotherapy, five cases illustrating, 224
Ciliary body (right eye), sarcoma of, case of, 964
Circulatory adjustments in polycythæmia rubra (W. D. W. Brooks), 1379
Clarke, T. A.—Discussion on value of radiology in diseases of the ear, 978
Cleminson, F. J.—Discussion on headache associated with diseases of the nose, 1329
Cockayne, E. A.—Arachnodactyly with congenital heart disease (? Patent interventricular septum), 120
Cogan, J. E. H.—Siderosis bulbi (foreign body removed), 389
Cold, human, transmission of, to hedgehogs, experiments on; preliminary note (J. T. Edwards), 393
Coleman, F. H.—? Encephalomyelitis, case of, 1217
***Colitis**, non-specific, therapeutic observations on (D. C. Hare), 19
diet and vitamins in reference to, 23
iron therapy in, 27
liver therapy in, 25
treatment of, 22
Colledge, L.—Discussion on problem of facial paralysis, 1690
Post-cricoid carcinoma, 525
Collier, D. J.—Facial paralysis: Ballance-Duel nerve graft, 1679
Colon, diverticulitis of, treatment of (C. J. Marshall), 339
Colver, T.—Ethmoidal suppuration with orbital involvement, 1435
***Cooper**, K. E.—Review of the observations which have accumulated with regard to the significance of diphtheria types in the last four years (1931-1935), 1029

Copeman, W. S. C.—Discussion on immobilization treatment of rheumatoid arthritis, 242
Two cases of Still's disease cured by gold injection, 497
Coramine- and camphor-like action, drugs with, pharmacological action and clinical use of (E. C. Dodds), 655
Cornea, Fuch's dystrophy of, 227
white ring in, two cases of, 964
Corneal dystrophy? with relapsing attacks of keratitis, 388
Corsi, H.—Nævus spilus, 928
Pemphigus vulgaris, 928
Sub-epidermal granuloma affecting skin of face: ? sarcoid of Darier-Roussy, 927
Cortex, the electrical activity of (E. D. Adrian), 197
Coutts, D.—Fœtus removed from mother's thigh following rupture of uterus, 308
Cove-Smith, R.—Defective saliva, case of, 126
Cranial nerve and spinal paralyses, recurrent, associated with herpes, 744
Craniopharyngioma, radiological signs of, 1158
Cranium, primitive surgical holing of, practised in Great Britain in mediæval times, with note on the introduction of trepanning instruments (T. Wilson Parry), 899
Creosote worker, multiple warts in, 89
? Cretinism: with upper lumber kyphosis resembling that in Morquio's disease, 500
Cruickshank, J. C.—Modern methods in agglutination, 841
Crustacea as helminth intermediaries, 1073
Culpin, M.—Discussion on functional nervous disease in the Fighting Services, 867
History of psychology in medicine, 1569
Cyclopropane (S. Rowbotham), 257
anæsthesia, administration of, 258
physical signs in and recovery from, 259
Cystectomy, complete, for recurrent carcinoma of bladder, 370

Dalrymple - Champneys, Sir Weldon. — Discussion on the malaria epidemic in Ceylon, 1934-1935, 537
Darier-Roussy sarcoid, case of, 721
Davidson, M.—Discussion on emphysema, 1315
Davis, A.—Discussion on intrinsic dysmenorrhœa, 931
Davis, E. D. D. — Discussion on diagnostic problems in otogenous intracranial complications, 1350
on disturbances of function of ear following injury, 1124
on treatment of acute frontal sinusitis, 305
Deacon, J. N.—Discussion on disturbances of function of ear following injury, 1126
Deformities, congenital, of mechanical origin (D. Browne), 1409
Dementia paralytica, treatment of, with electropyrexia, clinical results of, 152
with Sodoku, malaria and diathermy, comparative results of, 153
Dental extraction, third nerve palsy following, 959
Dental hæmorrhage, snake venom and its use in (J. D. Cambrook), 281
infection, chronic, as a cause of inefficiency in the Army (S. H. Woods), 375
infections of the antrum, pathology and treatment of (C. N. Strong), 1547
sepsis, amelioration of, by physical methods, including ultra-violet irradiation and ionization, discussion on, 783
surgeons, mortality and occupational diseases of (C. H. Howkins), 35
Dentition, permanent, erupted, complete caries of, in boy aged 12 years. Agenesia of the enamel, 1542
Dermatitis, exfoliative "Homme rouge," case of, 459
herpetiformis, idiopathic hypochromic anæmia with, 1288
radiotherapeutic, long delayed case of, 290
toxic (? arsenical), case of, 722
Dermatolysis and fragility of the skin, 923
Dermatomyositis, case of, 129
Developmental malformation, congenital, 1633
Diabetes and bilateral pulmonary tuberculosis treated by artificial pneumothorax and phrenic evulsion, 1226
mellitus with an unusually low renal threshold for sugar, 1216
Dickson, W. E. C.—Herniation of nucleus pulposus producing compression of spinal cord (complicated by chronic staphylococcal granuloma), 1461
Nasal tuberculoma, 1335
Diet in relation to non-specific colitis, 23
Dietetic factor influencing the action of insulin, 658
Diets, human, vitamin B_1 in (A. Z. Baker and M. D. Wright), 1145
in treatment of obesity, 413 *et seq.*
Diggle, F. Holt.—Discussion on treatment of acute frontal sinusitis, 299
Digits, supernumerary, case of, 498
Diphtheria, administrative value of swab in, 482
animal pathogenicity of the different types, 1042
atypical strains of, 1044
capacity of the different types to produce diphtheria in Schick-negative reactors and in those artificially immunized, 1049
fluctuations of type in large communities. 1048
persistence of type during convalescence and in the carrier state, 1047
questions of type stability, 1044
reasons for the greater severity of gravis infection, 1053
relation of death-rates per 100,000 population and predominance of different bacterial types, 1052
stability in the animal body, 1046
human body, 1047
in vitrio, 1046
swab as aid in diagnosis of, 481
application of a complete laboratory technique, 486
laboratory methods, 484
to research in, 483
types, incidence of, and characters of related diphtheria in various areas, 1034

Diphtheria, use and abuse of swab in combating, discussion on, 481
use of swab before admission to hospital, 487
in discovery of carriers and missed cases, 490
in isolation hospital, 489
***Diphtheria** types, significance of, review of the observations which have accumulated during the last four years (1931-1935) (K. E. Cooper, F. C. Happold, J. W. McLeod, and H. E. de C. Woodcock), 1029
Disease, evolution and (J. P. Lockhart-Mummery), 1234
Diverticulitis of colon, treatment of (C. J. Marshall), 339
Dodds, E. C.—The pharmacological action and clinical use of drugs with a camphor- and coramine-like action, 655
Doggart, J. H.—Eclamptic detachment of retina, 753
Fuch's epithelial dystrophy: remarks on two cases, 230
Donaldson, M.—Demonstration of a number of obstetrical and gynæcological models, 954
Results of sympathectomy in dysmenorrhœa, 947
Dottridge, F. S.—? Sporotrichosis, 1641
Doubleday, F. N.—Third molar behind the orbit, 1541
Two unusual cases of impacted mandibular third molars, 282
Dougal, D.—Discussion on radiology in relation to obstetrics, 689
Dowling, G. B.—Acquired hydroa æstivale with hæmatoporphyrinuria, 98
? Acrodermatitis chronica atrophicans (Herxheimer), case of, 919
Bowen's disease of finger, 639
Congenital developmental malformation, 1633
Congenital ectodermal defect: hyperkeratosis of palms; atrophy of nails and adjoining skin over dorsum of terminal phalanges; microdontism; cicatricial alopecia, 1633
Fox-Fordyce disease, 919
Lichen sclerosis, 1643
Lupus miliaris facei, 1642
Poikilodermato-myositis (Petges), 714
Schamberg's disease, 639
Downer, H. G.—Discussion on treatment of acute frontal sinusitis, 305
Doyne, P. G.—Congenital retinal fold, 963
Drinks, food value of, compared with bread, 418
Drip blood transfusion, continuous (H. L. Marriott and A. Kekwick), 337
Drugs with camphor- and coramine-like action, pharmacological action and clinical use of (E. C. Dodds), 655
Dudley, S. F.—Biological approach to study of epidemiology, 1
Dukes, C.—Specimen illustrating misplaced epithelium (possibly pancreas) within the rectum, 1013
Duodenal stenosis, case of, 1213
Durward, A.—Discussion on radiology in relation to obstetrics, 699
Dyschondroplasia with multiple chondromata, 1655
Dysmenorrhœa, intrinsic, discussion on, 931
hormonal factors influencing uterus contraction, 932
immediate causes of the pain in, 931
nervous factors influencing uterine contraction, 933
pathology of uterine nerves in, 933
significance of sympathetic neuritis in, 946
treatment of, 946
sympathectomy in, results of, 947, 949

Ear, diseases of, value of radiology in, discussion on, 969
disturbances of function of, following injury, 1114
intrinsic muscles of, anatomy of, 839
middle, anatomy of (A. L. Yates), 837
mucous membrane of, folds of, anatomy of, 838
non-suppurative conditions of, value of X-rays in, 972
suppurative conditions of, value of X-rays in, 973
East, Terence.—Latent heart block and mitral stenosis, 44
Eclamptic detachment of retina, 753
Ectodermal defect, congenital: hyperkeratosis of palms; atrophy of nails and adjoining skin over dorsum of terminal phalanges; microdontism: cicatricial alopecia, case of, 1633
Ectopia vesicæ in children, 1300
